

<b>Value Chart</b>
--------------------

**Objective:**

- Students will create a value chart with six gradating values.
- Students will learn to control the pencil in order to achieve a smooth gradation.

**Materials:**

- Paper
- Pencil- (#5B or #6B)
- Ruler

**Activity:**

1. Students will use a ruler to draw a 6-inch strip of six 1-inch squares.
2. Students will number outside the squares #1 through #6.
3. Students will shade the darkest value (black) in #6 square.
4. Students will gradually lighten the value in each consecutive square until they get to square #1, which will be white.

#1	#2	#3	#4	#5	#6

These values will be used to shade  
a sphere.
